EDUCATION

Rutgers · School of Arts and Sciences · New Brunswick NJ

Anticipated Graduation: May 2029

Majors: Computer Science | Data Science | Math

Cumulative GPA: 3.9

Courses: Systems Programming, Computer Algorithms, Data Management, Linear Algebra, Calculus (1-4)

WORK EXPERIENCE

Rutgers Data Structures Exam Grader

January 2026 - May 2026

- Assessed undergraduate exams focusing on data structures including linked lists, trees, hash tables, and graphs
- Proctored midterm and final exams ensuring adherence to Rutgers academic integrity standards

Rutgers Auto Lab Teaching Assistant · Trainee

April 2026 - Current

- Manage student submissions for intro CS courses utilizing Autolab auto-grading platform
- Write grading files and test cases for accurate and efficient grading of student code
- Troubleshoot environment configuration issues and provide students with technical support

Parsons Cabinetry

May 2026 - Current

- Working full-time in a fast-paced physically demanding environment while maintaining safety standards
- Demonstrated strong work ethic, reliability, and punctuality during full-time summer employment

Rutgers Assignment Guru

June 2026 - Current

- Write intro CS programming projects including directions, student files, grading rubrics, and solutions
- Collaborated with faculty to refine assignment difficulty and ensure all learning objectives were met

CERTIFICATIONS

CompTIA Data+

May 20, 2025

- Certified in SQL and Python for data querying, statistical analysis, and implementing data governance practices

Microsoft Excel Expert

June 17, 2025

- Mastered advanced formulas, pivot tables, Power Query, and VBA for interactive dashboard reporting

LEADERSHIP & PROFESSIONAL DEVELOPMENT

PCTVS Boys Varsity · Team Captain

March - May, 2023 - 2025

- Led group practices and helped teammates improve with individualized feedback and training
- Communicated between players and coaches to coordinate matches, tournaments, and events

Greater Newark Tennis & Education Non-Profit

June - August, 2025 - Current

- Coached advanced junior players, leading high-level drills and match-play sessions
- Developed individualized feedback plans emphasizing discipline, sportsmanship, and teamwork

PROJECTS

Raspberry Pi Weather API · <https://api.matthewjaroszek.com/api/help>

March 2026

- Developed a RESTful Weather API using Flask, integrating SQLite for backend data management
- Hosted the API on a personal Raspberry Pi 4, utilizing Linux command-line and SSH for server administration
- Configured Cloudflare Tunnels to securely expose local server to public internet enabling secure remote access

ACTIVITIES

Rutgers Blueprint Backend Fellowship

January 2026 - May 2026

Rutgers Tennis Club

September 2025 - Current

Rutgers Data Science Club

September 2025 - Current

SKILLS

Software: Microsoft Excel (VBA, Pivot Tables), PowerPoint, Word, Tableau

Developer Tools: Git, GitHub, Visual Studio Code, Bash, Zsh, PowerShell

Operating Systems: Windows, MacOS, Linux (Ubuntu, Debian, Raspbian)

Languages: Java, Python, SQL, C++, C, R, HTML, CSS, JavaScript

Honors: Rutgers Honors College, Rutgers Dean's List Fall 2025 & Spring 2026
